

Weightek

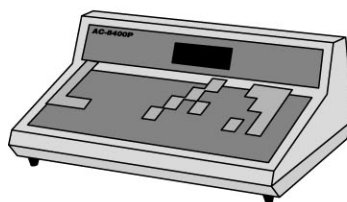

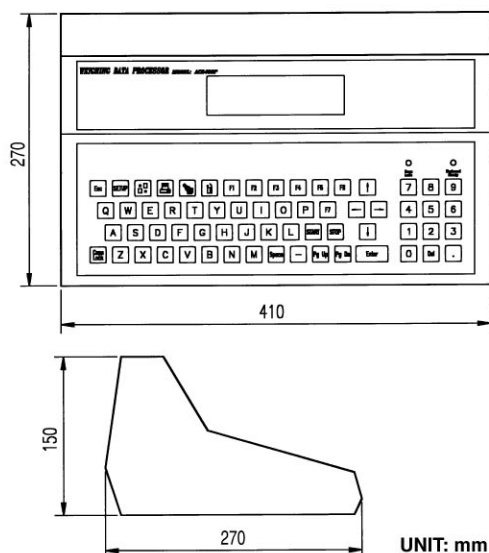

AC-8400P WEIGHING DATA PROCESSOR

AC-8400P

WEIGHING DATA PROCESSOR

Dimensions

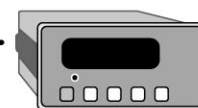

Specifications

Power requirement		110VAC/220VAC+10%-15% 50/60Hz	
Operation temperature		-5°C ~ +40°C	
Operation humidity		Under 85% RH (non-condensing)	
Weight		Approx. 5.26Kgs	
Physical dimension		410(W) x 270(D) x 150(H)	
Display	Type	LCD with CCFL backlite, 240 x 64 dots	
	Font	Chinese font 15 characters x 4 rows	Chinese version
		English font 30 letters x 4 rows	
		English font 30 letters x 4 rows	
	Contents	Chinese, English, Numbers, Symbols	
		Prompt messages	
Operation	Keyboard	Dust-proof mechanical touch type keypad	
	Contents	Time	6 digits
		Date	7 digits
		Truck No.	8 digits
		Customer No.	8 digits
		Material No.	8 digits
		Code	4 digits
		Weight	8 digits
		Serial No.	4 digits
Input interfaces		Passive 20mA current loop/ RS-232C	
Output interfaces		• RS-232C / RS-422 / RS-485 (only one of the output interfaces can be applied simultaneously, output a total record) • Passive 20 mA current loop (outputs weight data only)	
Memory		• 256K bits x 4 • Can store up to 3000 weight records • Able to keep 750 pre-tared weight data	
Weight ticket		5 kinds prefixed	
Report form option		By Total / Truck No. / Customer No. / Material No. / Pre-tared weight	
Optional interface	IF01	External input & Relay output
